

Living with Black Bears: Understanding Behavior to Reduce Conflict and Negative Interactions

Wednesday, May 22nd @ 7:00 pm

Join us for an in-depth look at black bears and how to peacefully co-exist with these large mammals roaming close to our homes.

Sponsored by
the Pound
Ridge Land
Conservancy

Get an understanding of black bear biology and why black bears are moving into our area. The program will be led by Certified Wildlife Biologist Budd Veverka, Director of Land Management at the Mianus River Gorge in Westchester County. Budd's long-time study of the species and first-hand experience, along with his outgoing and personable nature make for an educational and enjoyable presentation.

Registration is required.
